

Adult ESL and Citizenship Students Year End Celebration June 2, 2010

Comments from one of our members, Navnitrai Dave

Good afternoon ladies and gentlemen. “Namaste.” My name is Navnitrai Dave, and I am from India. My son petitioned for me, and I came here in 2005. The culture and weather of India and America are quite different; hence it takes some time to adjust, particularly for older people like me. But honestly, I will tell you that the person I am today is because of the East Brunswick Senior Center. Their activities are very good, like vitamins for me. When I am there, I am happy and healthy, because everyone is very kind, cooperative, and always ready to help others. At the Senior Center, I found out about the East Brunswick Public Schools adult ESL and citizenship classes there and at the library. I will never forget this, and I thank everyone for them.

I joined the English and citizenship classes last year and I learned a lot. Once again, I am a student, a ‘golden student’ at the age of 67. It is a great pleasure for me. Our respected teacher teaches us with love. She never leaves any topic, sentence, or single word until it is clear to us. Sometimes, she has to repeat things many times, but says with a smile, “Just put your computer on!” I sincerely thank her. I also attend classes at the library. This is a very good library with many books and computers. For this I also want to say thanks. Thank you for listening and giving me the opportunity to speak. I am very thankful to all of you.

***Congratulations to all ESL & Citizenship Class Students.
We are so very proud of you!***
